"I was impressed with the knowledge and explanations given to me, and the friendliness and caring of the staff. Also, the care in showing me exercises and the fact that Nick asked me to repeat back and mirror the exercises when given.

I improved quickly with the exercises and would recommend MDT to any friend in need. Thank you-I feel so much better!"

Don't take *OUR* word for it

"When I found MDT I had been to multiple PT's in the area, hoping (but failing) to find one that I felt 'fit' with what I was looking for in my physical therapy program. As a result, I was fairly far behind in where I should've been following my ACL/meniscus repair. I was extremely worried that it was too late to fully recover the way I'd hoped to in order to get back to high level snowboarding. 6 weeks later and I am more than back on track...and actually already *exceeding* the recovery from my other leg's ACL repair. Amazing! Thank you!"
